The Standing Committee recommended and **Dr. V.G. Srisanthi** moved that the recommendations of Board of studies - **Civil Engineering** to discuss and finalise the inclusion of the following Professional Electives and One Credit Courses for the students of **B.E Civil Engineering** degree programme admitted during 2019-2020 and subsequently be approved.

Professional Electives:

1. 19CEE21 Green Building Concepts and Practices
2. 19CEE32 Intelligent Transport System

One Credit courses:

1. 19CEOC05 Python for Civil Engineers
2. 19CEOC06 3DPrinting of Civil Engineering Structures
3. 19CEOC09 Sustainability in construction
4. 19CEOC10 Introduction to Image Processing and GIS

Dr. R. Sathyanarayan Sridhar seconded the move.

The move was put to vote and carried.

ITEM NO : 3

The Standing Committee recommended and **Dr. K. Marimuthu** moved that the recommendations of Board of studies - **Mechanical Engineering** to discuss and finalise the inclusion of the following Professional Electives, NPTEL Courses as Professional Electives and One Credit Courses for the students of **B.E. Mechanical Engineering** degree programme admitted during 2019-2020 and subsequently be approved.

Professional Electives:

19MEE49 Smart Materials

NPTEL Courses as Professional Electives:

**Product Design and Manufacturing
Fundamentals of Nuclear Power Generation
Applied Ergonomics**

One Credit courses:

**19MEOC14 Innovation and Entrepreneurship
19MEOC15 3D Scanning Technology**

Dr. T.Sridhar seconded the move.

The move was put to vote and carried.

ITEM NO : 4

The Standing Committee recommended and **Dr. K. Marimuthu** moved that the following NPTEL courses be included in the list of elective courses offered to the students M.E. (Advanced Manufacturing Technology) admitted during 2019-20 and subsequently as recommended by the Chairman, Board of Studies, Mechanical Engineering Branch be approved.

NPTEL Courses

19MMAE37 Production Operation and Management
19MMAE38 Modelling and Analytics of Supply Chain Management

Dr. T. Sridhar seconded the move.

The move was put to vote and carried.

ITEM NO : 5

The Standing Committee recommended and **Dr. K. Marimuthu** moved that the recommendations of Board of studies - **Mechanical Engineering** to discuss and approve the additional courses to be studied by Balaji.V. (17 02 062) of 2015 regulation who has been re-admitted in the III Semester of B.E. Mechanical Engineering (2019) as recommended by the Chairman, Board of Studies, B.E. Mechanical Engineering Branch be approved.

19ME31 Engineering Thermodynamics – Exempted Course
19ME11 Introduction to Mechanical Sciences – Additional Course to be studied.

Dr. T. Sridhar seconded the move.

The move was put to vote and carried.

ITEM NO : 6

The Standing Committee recommended and **Dr. S. Vasantharathna** moved that the recommendations of Board of studies - **Electrical and Electronics Engineering** to discuss and finalise the inclusion of the following Electives, NPTEL Courses, and One Credit Courses for the students of **B.E. Electrical and Electronics Engineering** degree programme admitted during 2019-2020 and subsequently be approved.

19EEE41 Switched Mode Power Conversion
19EEE42 Utilization of Solar Energy
19EEE43 Wearable Sensors

NPTEL Courses

Introduction to Internet of Things
Introduction to Industry 4.0 and Industrial Internet of Things
Fundamentals of Semiconductor Devices
Recent Advances in Transmission Insulators
Electric Vehicle Part I
Computer Networks and Internet Protocol
Data Science for Engineers
Programming, Data Structures and Algorithm Using Python
Strategy: An Introduction to Game Theory

One Credit Courses

19EEOC12 AWS Cloud Practitioner Essentials
19EEOC13 Introduction to IOT
19EEOC14 TCS ION Career Edge Young Professional

Dr. J. Devishree seconded the move.

The move was put to vote and carried.

ITEM NO : 7

The Standing Committee recommended and **Dr. S. Vasantharathna** moved that the recommendations of Board of studies - **Electrical and Electronics Engineering** to discuss to discuss and finalise the inclusion of the following elective courses for the students of **M.E. Applied Electronics** degree programme admitted during 2019- 2020 and subsequently be approved.

19MAOC08 Digital Twin Technology
19MAOC09 Robotics & Automation

Dr. J. Devishree seconded the move..

The move was put to vote and carried.

ITEM NO : 8

The Standing Committee recommended and **Dr. A. Rajeswari** moved that the recommendations of Board of studies - **Electronics and Communication Engineering** to discuss and finalise the inclusion of the following One Credit Courses for the students of **B.E. Electronics and Communication Engineering** degree programme admitted during 2019-2020 and subsequently be approved.

- 19ECOC22 HMS Foundation course on Mobile App Development**
- 19ECOC23 Baseband Communication – Signal Generation and Analysis**
- 19ECOC24 RF measurements**

Dr. M. Poongothai seconded the move.

The move was put to vote and carried.

ITEM NO : 9

The Standing Committee recommended and **Dr. A. Rajeswari** moved that the recommendations of Board of studies - **Electronics and Communication Engineering** to discuss and finalise the inclusion of the following elective course offered for the students of **M.E. Communication Engineering** degree programme admitted during 2019-2020 and subsequently be approved.

- 15MECE52 Deep Learning**

Dr. M. Poongothai seconded the move.

The move was put to vote and carried.

ITEM NO : 10

The Standing Committee recommended and **Dr. G.Kousalya** moved that the recommendations of Board of studies - **Computer Science and Engineering** to discuss and finalise the following NPTEL Courses for the students of **B.E. Computer Science and Engineering** degree programme admitted during 2019-2020 and subsequently be approved.

NPTEL Courses as Professional Electives:

Data Analysis and Decision Making I

Ethical Hacking

Dr. K. Amsakala seconded the move.

The move was put to vote and carried.

ITEM NO : 11

The Standing Committee recommended and **Dr.N.K. Karthikeyan** moved that the recommendations of Board of studies - **Information Technology** to discuss and finalise the inclusion of the following elective courses offered for the students of **B.Tech. Information Technology** degree programme admitted during 2019-2020 and subsequently be approved.

19ITE15 Full Stack Development
19ITE16 Virtual And Augment Reality

Dr. K. Amsakala seconded the move.

The move was put to vote and carried.

ITEM NO : 12

The Standing Committee recommended and **Dr.M. Thirumarimurugan** moved that the recommendations of Board of studies - **Chemical Engineering** to discuss and finalise the inclusion of the following elective courses offered for the students of **B.Tech. Chemical Engineering** degree programme admitted during 2019-2020 and subsequently be approved

19CHE31 Carbon Capture
19CHE32 Material Science and Technology
19CHE33 Bio-Process Technology
19CHE34 Pilot Plant Scale Up Methods

Dr. D. Prabakaran seconded the move.

The move was put to vote and carried.

ITEM NO : 13

The Standing Committee recommended and **Dr.Valliappan Raman** moved that the recommendations of Board of studies - **Computer Science and Engineering** to discuss and finalize the Curriculum and Syllabi for the students of **B.Tech. The move was put to vote and carried.

ITEM NO : 15

The Standing Committee recommended and **Dr.S. Suganthi** moved that the recommendations of Board of studies - **Computing** to discuss and finalize inclusion of the following one credit English Laboratory course in the Second Semester of **M.Sc.Data Science degree** programme for the students admitted during 2020 - 2021 and subsequently, be approved.

21MDS28 - Employability Skills

Dr. N. Yamunadevi seconded the move.

The move was put to vote and carried.

ITEM NO : 16

The standing committee recommended and **Dr. J. Shana** moved that the recommendations of **Board of Studies - Computing** to discuss and finalize the Curriculum and Syllabi of **M.Sc. Artificial Intelligence and Machine Learning degree** programme for the students admitted during 2019 - 2020 and subsequently, be approved.

Sixth to Tenth Semester - Curriculum and Syllabi

Dr. N. Yamunadevi seconded the move.

The move was put to vote and carried.

ITEM NO : 17

The standing committee recommended and **Dr. J. Shana** moved that the recommendations of **Board of Studies - Computing** to discuss and finalize the inclusion of the following One Credit Course offered for the students of **M.Sc. Artificial Intelligence and Machine Learning degree** programme, admitted during 2019 - 2020 and subsequently, be approved.

19MAMOC01 - ECONOMETRICS AND MACHINE LEARNING IN FINANCE

Dr. N. Yamunadevi seconded the move.

The move was put to vote and carried.

ITEM NO : 18

The Standing Committee recommended and **Dr.R.S.Somasundaram** moved that the recommendations of **Board of Studies - Computer Applications** to discuss and finalize the inclusion of the following One Credit Course offered for the students of **M.C.A. Computer Applications degree** programme admitted during 2020 - 2021 and subsequently, be approved.

15FY18 - English Language Laboratory : 1 Credit

ITEM NO : 16

Lateral entry students admitted during 2019 - 2020 batch may be permitted to study the following additional courses in V (s).

1. BC41 Engineering Mathematics
2. BC42 Physical Sciences

ITEM NO : 17

The following NPTEL courses may be included in the list of elective courses offered to the students M.E. (Advanced Manufacturing Technology) admitted during 2019-20 and subsequently as recommended by the Chairman, Board of Studies, B.E. Mechanical Engineering Branch.

NPTEL Course

19MMAE31 Material Characterization
19MMAE32 Foundations of Computational Materials Modelling
19MMAE33 Qualitative Research Methods and Research Writing
19MMAE34 Fundamentals of Surface Engineering Mechanisms, Processes and Characterization
19MMAE35 Materials Testing and Characterization Techniques
19MMAE36 Non Metallic Materials

- The Chairperson Dr. S. Vasantharathna welcomed the members of the Board of Studies for finalizing the following agendas:
 - UG (Electrical and Electronics Engineering) curriculum and syllabi contents for 7th and 8th semester subjects of study.
 - Syllabi contents for elective subjects and new elective courses.

- Syllabi for newly included One Credit Courses - 19EEOC08- Machine Vision, 19EEOC09-Cyber Security in Manufacturing and Smart Grid, 19EEOC10 - Robotics and automation and 19EEOC11- Abnormal psychology.
- Curriculum structure for B.E. Part Time Course for 3rd and 4th Semester subjects of study.
- Dr.V.Manikandan briefed on the curriculum and syllabi of 7th and 8th semester in UG full time R 2019 regulation and Syllabi contents for elective subjects and new elective courses.
- Dr.R.Rajalakshmi presented the curriculum for the 7th and 8th semester in UG full time R 2019 regulation.
- Dr.A. Arunya Revathi and other Board members expressed their views on **Professional Competency** course (GATE syllabus Test series / Industrial Training) offered in 7th semester and suggested to conduct regular periodic evaluation.
- Dr.S.Kudiyarasan clarified about the assessment of industrial training by the students.
- The Chairperson, Dr. S. Vasantharathna explained about the proposing methods of **Professional Competency** course as Test series of GATE Exam syllabus for PG aspirants or as Industrial Training for aspirants of career in non-engineering fields like management etc., and for slow learners.
- Selection of the option between test series of GATE Exam syllabus and Industrial Training will be done through Google forms distributed to the students.
- Dr.V.Manikandan discussed the Industrial Training acquisition and evaluation procedures by assigning individual mentor to each student to facilitate industry selection and further progression.
- Dr.S.Kudiyarasan appreciated about the allocation of mentor for each student for Industrial Training **Professional Competency** course.
- Dr.M.P.Selvan suggested to form a three member committee for assessing the Industrial Training.
- Dr.R.Rajalakshmi presented the syllabi for the 7th and 8th semester and elective courses in UG full time R 2019 regulation.
- Dr.S.Kudiyarasan suggested to include fuzzy based controllers as syllabus contents in the course 19EE71-Solid State Drives **and Control** and charging station contents in the course 19EE73-Smart Grid.
- Dr.S.Elango explained about the new experiments included in **Automation, Renewable Energy and FPGA Laboratory** under the topic Renewable Energy, Dr.S.Geetha explained about FPGA

Programming experiments and Dr.G.Manavalan explained about the experiments under Automation lab.

- Dr.A. Arunya Revathi and other board members expressed their views on elective lab-**Automation, Renewable Energy and FPGA Laboratory** that it can be divided into two separate lab courses as 1. Automation lab and 2. Renewable energy and FPGA Programming lab in order to reduce the overloading of experiments as single lab course.
- Dr.A. Arunya Revathi suggested to include related topics of lab experiments listed in **Automation, Renewable Energy and FPGA Laboratory** like "python programming" may be in the theory contents or may be offered as one credit courses.
- Dr. S. Vasantharathna and Mrs. M. Radha explained that python programming concepts were already included in the one-credit course **19EEOC08-Machine Vision**, which was taught by Tata Consulting Services Pvt Ltd for 2019-2023 batch students. Therefore it may be exempted for 2019-2023 batch students.
- Dr.A. Arunya Revathi suggested to streamline the students for the selection of elective streams and to add more elective courses in Electrical Machines and Control (EMC) professional elective stream.
- All the board members approved the syllabus contents for revised elective courses from R2015 regulation and new electives which are listed below in R2019.

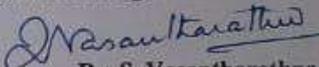

S.No	New Elective Course Title	Stream code
1.	Energy Efficiency in Thermal and Electrical Utilities	P & E – Power and Energy
2.	Deep Learning	CC – Computer Communication
3.	Automation, Renewable Energy and FPGA Laboratory	Elective Lab

- Dr. M. Sathish suggested that futuristic elective courses be included to address future industry needs.
- Dr. S. Vasantharathna discussed about the institution autonomy rights, which include the ability to add new electives and change the syllabus content of electives as needed throughout the academic year.
- All the board members acknowledged to retain the syllabus contents of certain electives from R2015 without any modification as it were preapproved in R2015 BoS meetings.
- Dr.V.Manikandan briefed on the curriculum structure for B.E. Part Time Course for 3rd and 4th Semester subjects of study.
- Dr.M.P.Selvan suggested that the courses Transmission and Distribution and Power System Analysis should not be taught in the same semester, so he proposed moving **19EE45- Transmission and**

Distribution to the third semester and 19EE43-Measurements and Instrumentation to the fourth semester in the B.E. Part Time curriculum structure.

- All the board members suggested to use the PO's, PEO's and CO's framing keywords as per Bloom's Taxonomy metrics.
- Dr. S. Vasantharathna recommended that, based on expert members' suggestions, the updated CO and its mapping with PO, PSO, and PEO is presented at the next BoS meeting.

At last, Chairperson concluded the meeting with the main points discussed in the forum which is used to enhance the knowledge and skill of the students as per the current industry scenario. Finally she thanked all the members and welcomed further suggestions from all the members through email.

- The Chairperson Dr. S. Vasantharathna welcomed the members of the Board of Studies for finalizing the following agendas:
 - UG (Electrical and Electronics Engineering) syllabi contents for proposed electives.
 - Ratification of One Credit Courses - 19EEOC12-AWS Cloud Practitioner Essentials, 19EEOC13-Introduction to IoT and 19EEOC14-TCS ION Career Edge – Young Professional.

- Curriculum structure and syllabi contents of 5th, 6th and 7th semesters of B.E. Part Time Course.
- Review of R2019 PO's and PEO's
- NPTEL courses as Ph.D Course Work
- Approval of R2015 Assessment Methods for PO's and PEO's attainment in NBA SAR assessment.

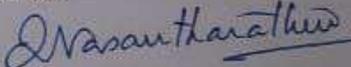

- The Chairperson, Dr. S. Vasantharathna introduced the faculty who proposed the syllabi contents for new elective courses as follows:

Wearable Sensors	Ms.A.Priyadharshini, Ms.K.Arthi
Switched Mode Power Conversion	Dr.M.Radha
Utilization of Solar and Wind Energy	Dr.R.Rajalakshmi, Dr.M.Mynavathi

- Ms.K.Arthi first introduced the contents of the new elective on title Wearable Sensors for R 2019 regulation. Dr.A. Arunya Revathi addressed the repetition of content in previous semester courses and instructed to retain 5 CO's and adhere to all Bloom's taxonomy levels. Dr.M.P.Selvan and Dr.M. Sathish acknowledged the syllabus contents, and Dr.S.Kudiyarasan suggested that a radiation sensor be included in this course.
 - Dr. M. Radha presented the syllabi content of the new elective Switched Mode Power Conversion for R 2019 regulation.
 - Dr.M.P.Selvan suggested that the fifth unit's contents be reduced in new elective course Switched Mode Power Conversion and the EMI content be offered as a separate elective course. Dr.A. Arunya Revathi insisted on offering this course to students after they had completed the power electronics course. Internal Members agreed to offer the course during the seventh and eighth semesters. Dr. M. Sathish recommended EMC-related topics inclusion in the new EMI elective course.
 - Dr.R.Rajalakshmi presented the syllabi content of the new elective Utilization of Solar and Wind Energy for R 2019 regulation. Dr. S. Vasantharathna discussed the importance of the course inclusion, stating that it has been requested by industry experts from L&T and TCS to include the e-waste management, which is one of the most demanded topics in industries and is being seen as an important factor for student's placement.
- Dr.A. Arunya Revathi acknowledged the syllabus contents, Dr.M.P.Selvan, Dr.M. Sathish, and Dr.S.Kudiyarasan suggested to remove the wind generation contents from this course and to offer this course exclusively for solar generations by including solar for space applications, e waste management only for solar related components in fifth unit. Dr.Rajalakshmi accepted the expert members' suggestions and decided to modify the course title to Utilization of Solar Energy and to focus solely on solar generation.

- Dr. S. Vasantharathna briefed on the curriculum structure for B.E. Part Time Course from 5th Semester to 7th semester subjects of study. And also discussed about the offering of Data structures and Systems as core course instead of C++ and Oops and Digital signal processing courses.
- All board members approved the curriculum structure and syllabus contents for the B.E. Part Time Course, as well as the inclusion of Data structures and Systems as a core course and C++ and Oops and Digital signal Processing are to be offered as elective courses. Dr. Arunya Revathi suggested that another lab be added to the B.E. Part Time course. Internal members acknowledged and informed that it will be taken to the notice of Standing committee and Academic council members.
- Ms.A.Priyadhashini described the R2015 Assessment Methods for PO and PEO attainment of NBA SAR. She started by introducing the methods for determining the CO's target matrix for PO attainment. She then explained the direct and indirect assessment methodologies for calculating PO attainment.
- Dr.Arunya Revathi requested that the flow diagram for the R2015 Assessment Methods for PO and PEO Attainment in the NBA SAR Assessment Process be shared. All the clarifications of external members were justified by the internal members.
- All the board members agreed to offer NPTEL courses identified by the DC member panel with approval from research board and may be considered as course work subject for Ph.D scholars.
- All the board members approved the PO's, PEO's, PSO's and CO's as per Bloom's Taxonomy metrics.

At last, Chairperson concluded the meeting with the main points discussed in the forum which is used to enhance the knowledge and skill of the students as per the current industry scenario. Finally she thanked all the members and welcomed further suggestions from all the members through email. All the corrections are incorporated and revised syllabus copy has been submitted.

Dr. N. K. Karthikeyan, Head of the Department of Information Technology, Chairman BoS (Board of Studies) welcomed the Anna University nominee, experts from Industry & Academia and introduced the internal BoS members of the meeting.

Dr. G. Aghila from NIT Trichy suggested to consider the courses which covers areas like innovative thinking and start-ups.

Also she has suggested that one credit courses can be handled by industry persons.

Dr. Rangaraja Gopal from Acenet Technologies Indra Pvt Ltd suggested to make MoU's with industry to enhance the placement.

Dr. G. R. Karpagam from PSG College of Technology has suggested to introduce "Full Stack Development" as an elective.

Mr. Selvakumar from Thoughtworks suggested an elective "Virtual Reality and Augmented Reality" since it is one of the emerging trends in industry.

Mr. Selvakumar has suggested to make "UNIX Internals" as core course instead of keeping in electives.

Dr. Aghila has suggested to standardize all the credits of practical Courses to carry Common Credits.

Committee members approved the Course outcomes, program outcomes and Co po mapping of all Courses.

Dr. G. Kousalya, Chairman BOS welcomed the BOS members. The following suggestions were made by Board of Studies members.

BOS meeting is conducted to seek board approval for revised subjects of study (Semester II - Semester VIII) and syllabus for new subjects in Semester I - Semester IV for AI and DS

The following suggestions were made in the meeting

1. In Semester III, Panel members suggested to rename the subject title "Artificial Intelligence" into "Principles of Artificial Intelligence"
2. In Semester VII, Anna University nominee, Dr. Cynthia suggested changing the subject title "Fundamentals of IoT", not to name it as fundamental due to the subject offered in final year.
3. In Semester II, subject "Fundamentals of IR4.0", panel members suggested maintaining the introductory concepts of emerging technologies.
4. In Semester I, subject "Probability and Statistics", the committee recommended to include basis of R programming, where as students can implement the statistical modelling concepts.
5. In Semester III, subject "Introduction to

- "Artificial Intelligence", panel members suggested adding a module on "Explainable AI" which is gaining more awareness in industry sectors due to raising of legal, ethical and social issues in AI applications.
6. In Semester III, for the subject "Software Engineering Principles and Practices", Industry experts recommended to include a module on software lifecycle model for AI projects i.e. AI software development life cycle. Anna University nominee suggested a module on agile practices.
 7. In Semester III, for the subject "Web Development Technologies", the panel suggested a module on Bootstrap, UI framework for building websites.
 8. In Semester IV, in the subject "Machine Learning Techniques", the committee members suggested a module on ensemble methods, which is widely used in industry for improving the predictive performance results.
 9. In Semester IV, "Data Communication and Networking", Dr. Cynthia recommended to include a module on 5G, 4G & 3G standards.
 10. In Semester IV, for the subject "Principle of Computer Systems", Panel members suggested to include ARM architecture.

11. In Semester IV, for Database Management System Laboratory, Panel suggested to include NoSQL database, which is widely used in industry for providing high level of scalability.
- 12 For BE Computer Science and Engineering the committee approved TWO NPTEL Courses.

Minutes of the of Studies 35th Board Meeting in the Department of Civil Engineering

- Minutes of the meeting of the Board of Studies in Civil Engineering held on Thursday, the 3rd March, 2022 at 3.00 P.M at Coimbatore Institute of Technology, Coimbatore - 641014 to review the syllabus of B.E Civil Engineering, B.E Part time-Civil Engineering and PG Civil Engineering Programme.
- Dr.V.G.Srisanthi, Chairperson, Board of Studies, Civil Engineering and HOD, Civil Engineering Department welcomed the members and initiated the discussions by requesting the external members Dr.R.Thenmozhi, Dr.S.T.Ramesh, Dr.S.Thirugnanasambandam, Er.S. Sivalingam and Er.P.ArunPrasath to review the syllabus for both UG and PG courses as per agenda and to suggest changes/modifications if any.
- Dr.V.G.Srisanthi first presented the agenda of the meeting to review the course contents of newly added professional electives and one credit courses and syllabi of Part time B.E Civil Engineering from fifth semester to seventh semester. The following professional electives and one credit courses were discussed in the meeting to include in the curriculum.

Professional Electives

- Intelligent Transport System.
- Green Building Concepts and Practices

One credit courses

- Python for Civil Engineers
- 3D Printing of Civil Engineering Structures
- Sustainability in Construction
- Introduction to Remote Sensing and GIS

The board discussed in length the professional electives and one credit courses with their syllabus and suggested various additions and alterations in the proposed syllabus. The following suggestions were made by external members in the meeting.

(E-JAYANTHMANI)

- The external member Dr.R.Thenmozhi suggested to reduce the contents of syllabus prescribed in the professional elective course 'Green Building Concepts and practices' in whole and adopt a sequential approach of the units. She highlighted to include green technologies and Green Building rating system in the syllabus and remove the topics such as waste water treatment, water conservation system and green movements. She also suggested to change the title of one credit course 'Geoinformatics Laboratory' as 'Introduction and Practical application of GIS'.
- The external member Dr.S.T.Ramesh suggested inclusion of contents such as Telecommunications and its importance in the transport systems, IBS, Information Management, Vehicle positioning system, Artificial Intelligence in the professional elective course ' Intelligent Transport System'. He also offered suggestions to add latest text books and mention online resources like NPTEL, Coursera. He also suggested to include applications in one credit course 'Python for Civil Engineers'.
- Dr.S.Thirugnanasambandam suggested inclusion of geo polymer concrete in one credit course '3D Printing of Building' under mix design portion.
- The external member Er.S.Sivalingam, Renowned CIT Alumni, shared his observations on the syllabus of professional electives and one credit courses. He suggested inclusion of green auditing with focus on water foot print auditing.
- Er. ArunPrasath appreciated the inclusion of some alternate construction materials in one credit course 'Sustainability in Building Construction' as construction industry presently faces the availability of getting sufficient conventional construction materials in the market.
- All these suggestions were discussed in the meeting and it was decided that efforts would be made by the chairperson Dr.V.G.Srisanthi to incorporate the suggestions to the possible extent.
- The meeting concluded with vote of thanks proposed by Dr.V.G.Srisanthi, Head of Department, Civil Engineering.
