

**COIMBATORE INSTITUTE OF TECHNOLOGY,
COIMBATORE 641014
DEPARTMENT OF ECE**

**SUMMER INTERNSHIP ON
CLOUD BASED INTELLIGENT EDGE
POWERED IoT SOLUTIONS**

15.07.2024 -27.07.2024

About the Internship Programme :

- IoT Centre @CIT offers summer internship on IoT to Second/ Prefinal year B.E/B.Tech students across the country
- Hands Sessions will be provided to develop intelligent IoT solutions
- Major Theme : IoT based System Design, Power of IoT- LoRAWAN Edge Analytics using AI&ML and Data control and Device monitoring in Cloud using Mobile App
- Internship period is for minimum period of 2 weeks
- Shortlisted students will be informed through registered email
- The Internship fee Rs.1000 per student
- The enrollment for the Internship will be confirmed after payment only
- Registration will be closing on 13.07.2024
- Registration Link: <https://forms.gle/wtVhL6fpKcQkuc9L6>

IOT LAB-ECE @CIT

IoT center was started in 2018 with an aim to engage our faculty to establish deep-tech startups. Its vision is to transform CIT to Smart Campus through Internet of Things and and to convert labs smarter using convergence of technologies, markets, applications, and the Internet for campus management.

COMPLETED PROJECTS

- IoT based Car Parking System Using LORAWAN Technology for CIT Campus
- An Integrated modeling for forecasting air pollutant concentration in NCR
- Embedded Assistive Cane for Visually Impaired persons
- Embedded Assistive Cane for Visually Impaired persons
- Brain tumor detection using Machine Learning
- Path finding Robot

MORE INFORMATION:

www.citeceiot.in

ON-GOING PROJECTS

- EOG based human computer interface using virtual keyboard
- Automated SMD Pick and Place System
- Fake Face Detection using Meta data analyzer and deep learning
