COIMBATORE INSTITUTE OF TECHNOLOGY, COIMBATORE

Department of Artificial Intelligence & Data Science

Intellina 2k23

We the students of B.TECH (Artificial Intelligence and Data Science) 2nd Year have come up with a plan of Conducting a tech-fest on 18th March 2023. The main intention of this fest is to show how the world is adapting to the new dimension of “ARTIFICIAL INTELLIGENCE”. We are also interested in encouraging the students to showcase their talents. So in order to engage the participants we came up with a set of technical and non-technical events.

Technical events:

1. Code Debugging

- In this event, we will give codes with some error. The task would be to spot out the error and give the correct code.

2. Mini – Hackathon

In this event, we will give few problem statements and the task for the participants would be to give solutions for the problem and it should satisfy all the constraints.

3. Paper Presentation

In this event, the participants should develop their own solutions for the given theme and present their ideas before the jury.

4. Website Development

In this event, the participants should develop their own solutions for the given theme and present their ideas before the jury.

5. project Demonstration

In this event, we will provide all the requirements to develop a prototype for the given problem statement. The best working prototypes would be awarded and showcased.

Non – Technical Events:

1.Treasure hunt

In this event, we will hide a treasure. We will provide some QR codes and all the questions. The task would be to find the treasure using the hints.

2.Short video making

In this event, some time will be given and the task is to shoot a video within the campus within the given time.

3.Meme contest

In this event, theme will be given and the participant have to create a meme for the same.

Additionally, we have also included a expo in which start-ups and companies can showcase their new projects to our participants. This gives an idea to the students so that they can bridge the gap between companies and Colleges.

Expected Attendees: 600.

From all the participants, as a registration fee Rs.100 will be collected and they can participate in all the events in this fest.

This Rs.100 is collected for fulfilling the requirements for the participants.

For every event, along with participant certificates, top three participants will be awarded with trophy and it will be given by our chief guest.

Budget:

Flex	4500
brochure	700
Poster	1000
Food	53,000
Notepad	16*600=9300
Pen	16*600=1240

Id	$16 * 600 = 3000$
Certificate	$16 * 600 = 9600$
Awards	$3 * 9 * 1000 = 27000$
Decoratives	3500
Snacks	2500
Bouquet/gift	3000
Total	1,18,340

Amount from participants = $100 * 600 = 60,000$.

Remaining Amount = $1,18,340 - 60,000$
= 58,340.

Schedule:

Reporting Time: 08.30 AM

09.00 AM – 10.00AM -> Code Debugging.

09.30AM – 12.30PM -> Paper Presentation.

10.00 AM – 11.00AM -> AI Codathon.

11.00 AM – 12.00PM -> Website Development.

12.00 PM – 01.00PM -> Project Demonstration.

01.00 PM – 02.00PM -> Lunch.

02.00 PM – 03.00PM -> AI Codathon.

03.00 PM – 04.00PM -> Code Debugging.

04.00 PM – 04.30PM ->Break.

04.30PM – 05.30PM -> Treasure Hunt.

05.30PM – 06.30PM -> Short Video Making.

06.30PM – 07.30PM -> Meme Contest.

07.30PM – 08.30PM -> Award Distribution.

****Schedule and budget may vary based on number of participants***

Hackathon and Reward Best Ideas

REPORT

A Hackathon event was hosted for students belonging to B.E, M.E, B.Tech and M.Sc. of different academic years of CIT on 18-03-23 by Google Developer's Students club of CIT. Around 300 students are participated in the event. It was divided into two tracks consisting of Data visualization and Evolving website or ML model using a unique idea. The Data visualization was conducted for first-year students, while the second track was conducted for second, third and fourth years. The winning team was awarded a cash prize range from Rs.800 to Rs.2500, and the runner-up team was awarded cash price range from Rs.400 to Rs.1500.

The poster for the Summer Hackathon 2023 features a grid background with a red and yellow border. At the top, it displays logos for Coimbatore Institute of Technology, MoE's Innovation Cell (Government of India), and the Institution's Innovation Council. Below these is the Google Developer Student Clubs logo and the text 'Coimbatore Institute of Technology'. The main title 'SUMMER HACKATHON 2023' is in green. Event details are listed in red and black text, including the date (Saturday March 18, 2023), location (IT Block, CIT), and time (9 AM to 4 PM IST). It also mentions a cash prize, refreshments, and participation types (Solo, Duo, Trio, Squad). Track information is provided: Track 1 for 1st years and Track 2 for 2nd years and above. An entry fee of 100 INR is noted. A QR code for registration is included with the text 'Scan to register'. Contact information for enquiries is provided at the bottom, along with social media handles for GDSC_CIT on Instagram, Twitter, and LinkedIn.
