A candidate is considered **qualified** if the marks secured are greater than or equal to the qualifying marks mentioned for the category, for which a valid category certificate, if applicable, must be produced along with this Score Card.

**This Score Card is valid up to 31<sup>st</sup> March 2028.**

**GATE SCORE COMPUTATION**

The GATE 2025 score is calculated using the formula:

$$\text{GATE Score} = S_0 + (S_1 - S_0) \frac{(M - M_q)}{(M_t - M_q)}$$

where,  
M is the marks obtained by the candidate in the test paper mentioned on the GATE 2025 Score Card  
M<sub>q</sub> is the qualifying marks for general category candidates in the test paper  
M<sub>t</sub> is the mean of marks of top 0.1% or top 10 (whichever is larger) of all the candidates who appeared in the test paper  
S<sub>0</sub> = 350, is the score assigned to M<sub>q</sub> and  
S<sub>1</sub> = 900, is the score assigned to M<sub>t</sub>

In the GATE 2025 score formula, the qualifying marks (M<sub>q</sub>) for the general category candidate in each subject will be :  
Cut-off marks for GENERAL category = max(25, min(40, μ + σ)). Here μ is the mean and σ is the standard deviation of positive marks of all the candidates who appeared in the test paper.

Qualifying in GATE 2025 does not guarantee admission to a postgraduate program or scholarship/financial assistance. Admitting institutes may conduct additional tests or interviews for final selection of candidates.

Graduate Aptitude Test in Engineering (GATE) 2025 was organised by Indian Institute of Technology Roorkee on behalf of National Coordination Board (NCB) - GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

Achievements of the Students for the Academic year 2024 - 2025

Students Hackathon/ Ideathon	Students Hackathon/ Ideathon	
 <p>We are delighted to share a momentous triumph: our illustrious team has emerged victorious in the prestigious hackathon orchestrated by the Google Developer Student Club at our esteemed Coimbatore Institute of Technology. This remarkable achievement stands as a testament to our collective ingenuity, unwavering dedication, and exceptional synergy. This victory serves as a launching pad for future endeavors, inspiring us to reach even greater heights in the realm of technological innovation.</p>	 <p>Our team undertook an open-ended innovation challenge, focusing on developing cutting-edge solutions for the automotive industry. The result was a ground breaking ad hoc communication feature designed to enhance vehicle safety and emergency response capabilities. This innovative system enables automobiles to establish direct communication with nearby vehicles and devices, even in the absence of cellular networks. This functionality proves crucial during emergency situations, ensuring vital information can be transmitted regardless of traditional infrastructure availability.</p>	 <p>To demonstrate the viability of our concept, we developed a proof-of-concept simulation. This involved creating a local area network (LAN) to connect mobile devices, which then communicated emergency trigger messages via radio signals. These signals were transmitted and received using ESP32 microcontrollers, showcasing the practical application of our technology.</p> <p><b>TEAMMEGATRIX:</b>                      -Vikash Vardhan S                      -Dinesh Kumar R                      -Velmurugan T                      -Indra Nivas S</p>

The esteemed seminar, "From Idea to Impact: The Journey of Startup," was meticulously organised by CGC-CLAP & IQAC of Coimbatore Institute of Technology, serving as an enlightening platform for students keen on exploring the realm of entrepreneurship and startup innovation. The session was graced by Mr. Arvind Subramaniam, former Associate Vice President of Startup TN, whose profound expertise in the startup ecosystem enriched the discourse, making it a truly insightful and thought-provoking experience.

Mr. Arvind commenced the session by elucidating the foundational principles of entrepreneurship, highlighting the significance of problem identification, business validation, and an in-depth understanding of market dynamics. He accentuated the pivotal role of customer-centric innovation and strategic planning in fostering a sustainable business model. His discourse shed light on the imperative steps involved in ideation, execution, and scaling a venture, instilling in students a structured approach towards entrepreneurial pursuits. A key segment of the session delved into funding avenues for startups, encompassing government schemes, venture capital investments, angel funding, and bootstrapping strategies. Mr. Arvind articulated the nuances of investor expectations, crafting compelling pitches, and the indispensable components of a robust business model, ensuring students gained a comprehensive perspective on securing financial support for their ventures. He further expounded on the challenges encountered by emerging entrepreneurs and proffered pragmatic solutions to navigate these hurdles, thereby fortifying their resolve to embark on an entrepreneurial journey. One of the most engaging aspects of the seminar was the interactive session, wherein students enthusiastically posed queries and sought guidance on various facets of entrepreneurship. Mr. Arvind, with his profound industry experience, illustrated his insights with real-world case studies, offering practical strategies for overcoming obstacles, adapting to market fluctuations, and ensuring sustained business growth. His invaluable inputs inspired attendees to embrace innovation, exhibit resilience, and pursue their entrepreneurial aspirations with unwavering confidence.
