CIT84 SCHOLARSHIP FUND

Individual contributors from the batch of CIT 1984 have pooled their resources and assembled the scholarship fund. We are the first four year batch and represent various branches of engineering within the college. We would like it to be called the CIT84 Scholarship fund. The amount should be deposited in an interest bearing long term deposit which yields a reasonable interest on an annual basis. The principal should not be diverted to other uses other than this scholarship with out the written consent of at least three members of this 1984 batch. The following are the criteria that we have in mind for the award of the scholarship.

- The awardee should be a B.E./B.Tech. full time student of CIT.
- The student should have maintained an above average (60% or higher, 6.5 CGPA) academic performance over the previous academic year.
- The student's attendance in class should be as per stipulated norms of the University.
- The family's means to support the student should be constrained in some verifiable form for a period of at least three months.
- The student should not be the beneficiary of any other National, State or College level award that is monetary in nature and has a value in excess of 25% of the award.
- The award should be tied to the 2nd, 3rd or 4th year engineering class. Preferably whichever one that has the least number of current awards.
- The award should be presented to a student who matches the above criteria each year, failing which the funds should not be drawn out of the account.
- The student should have the equivalent portion of his college fees waived. There should be no cash transaction with the student.
- A folder should track the awardees each year. Information such as the students name, his photo, date of award, amount of award etc. should be captured and maintained on an ongoing basis.

The student prior to receiving the award will consent to "attempt" to establish in the future a similar fund to benefit the next generation of CITians.
