Certificate of Internship

This is to certify that Dharani Jayam D(Roll no: 7176 21 05 013), student from Coimbatore Institute of Technology in her third year B.E (CSE) curriculum.

Dharani Jayam D have done her internship from 01st Aug 2023 to 04th Sep 2023.

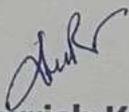

The following activities were performed, evaluated and documented during her internship.

- Identifying and evaluating industry pain points with Ideal customers that can be solved using disruptive software technology(3D).
- Prepared documents to list the analysis on industry specific problems and possible solutions that improve the internal business process and/or business revenue.
- Understanding of 3D related libraries (three.js) to build web applications using node.js and React framework.
- Code commit and versioning were done using Github platform.
- Build and Deploy applications, API using AWS Cloud Platform.
- Evaluation of RapidAPI for publishing commercial API to use 3D related features.

The student understood the project development approach, tools, process, and software development mechanisms during the time spent with our technology leaders.

Future improvements and market expectations were discussed during this period to enhance their skills for employability and the process of establishing a technology startup.

We wish her a best of luck in future careers.

Certificate of Internship

This is to certify that Hanush M(Roll no: 7176 21 05 022), student from Coimbatore Institute of Technology in his third year B.E (CSE) curriculum.

Hanush M have done his internship from 01st Aug 2023 to 04th Sep 2023.

The following activities were performed, evaluated and documented during his internship.

- Identifying and evaluating industry pain points with Ideal customers that can be solved using disruptive software technology(3D).
- Prepared documents to list the analysis on industry specific problems and possible solutions that improve the internal business process and/or business revenue.
- Understanding of 3D related libraries (three.js) to build web applications using node.js and React framework.
- Code commit and versioning were done using Github platform.
- Build and Deploy applications, API using AWS Cloud Platform.
- Evaluation of RapidAPI for publishing commercial API to use 3D related features.

The student understood the project development approach, tools, process, and software development mechanisms during the time spent with our technology leaders.

Future improvements and market expectations were discussed during this period to enhance their skills for employability and the process of establishing a technology startup.

We wish him a best of luck in future careers.

Certificate of Internship

This is to certify that Jagadeep S (roll no: 71762105974), student from *Cambodia Institute of Technology* in his third year B.E (CSE) curriculum.

Jagadeep S have done his internship from 01st Aug 2023 to 06th Sep 2023.

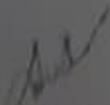

The following activities were performed, evaluated and documented during his internship.

- Identifying and evaluating industry pain points with ideal customers that can be solved using disruptive software technology (3D)
- Prepared documents to list the analysis on industry specific problems and possible solutions that improve the internal business process and/or business revenue.
- Understanding of 3D related libraries (three.js) to build web applications using node.js and React framework.
- Code commit and versioning were done using Github platform.
- Build and Deploy applications, API using AWS Cloud Platform
- Evaluation of RapidAPI for publishing commercial API to use 3D related features

The student understood the project development approach, tools, process, and software development mechanisms during the time spent with our technology leaders.

Future improvements and market expectations were discussed during this period to enhance their skills for employability and the process of establishing a technology startup.

We wish him a best of luck in future careers.
